Installation and care

- Use a latex-modified thin-set mortar (LFT mortar for 24" x 48") on a flat, clean, level substrate.
- Mix pieces from several boxes to blend the natural variation. Sealing is not required.
- Momo decor has a set installation direction: dry-lay the pattern before setting.
- Aurum gold accents: clean with neutral, non-abrasive, alcohol-free products; remove grout haze within 10-20 minutes.
